

A summer program of the  
National Inventors Hall of Fame® Foundation

## SPECIAL PAYMENT METHODS AVAILABLE FOR A SHORT TIME! MAKE A SMALL DEPOSIT AND PAY BALANCE OVER THE NEXT FEW MONTHS!!

Mesa Public Schools is pleased to host the Camp Invention program, an exciting weeklong summer day experience for children entering grades one through six at Lindbergh Elementary School the week of July 20-24, 2009 with all new activities! The program is designed to inspire creativity and inventive thinking through loads of hands-on activities and F-U-N! Children will participate in five inventive modules each day, which include: the **Viking Treasure Trek: The Quest Begins™** module, where children will become the first to find the hidden treasure of the Vikings, the **Land Sled X-Treme™** module, where they will engineer and build the next great land vehicle, and finally the **Comic Book Science: FlyJack and Jill™** module, where they learn how superheroes fly and then create their ideal comic book star. The Camp Invention program integrates science, mathematics, history, and the arts in an exciting environment conducive to learning disguised as fun!

This year, the Camp Invention program is being hosted by Mesa Public Schools. Loretta Rodriguez will again direct the program, and local, certified teachers will lead five modules each day. Enthusiastic high school and college students will serve as counselors. The program features a low staff to child ratio, with one staff member for every eight children.

The registration fee includes snacks and a Camp Invention T-shirt. Register before March 31st or bring a friend to receive \$20 off the base registration price of \$205; online registrants receive an additional \$5 savings! Call 800.968.4332 today to inquire about savings opportunities for your family. Registration is limited to 110 children and spaces are limited. Don't let your child miss all the fun! For more information or to register, visit [www.campinvention.org](http://www.campinvention.org) or call 800.968.4332.

What will your children be  
when they grow up?
